Driving Quality

The Warnerbus Peugeot Expert Accessible Vehicle

If you require a smaller conversion, but need the reliability of a Peugeot vehicle, the Expert could be your ideal solution. With a choice of two HDi diesel engines, both equipped with a common rail direct injection system, which reduces fuel consumption, the Expert produces additional power whilst conforming to Europe's anti-pollution standards.

The Peugeot Expert was voted International Van of the Year 2008 which in itself tells you what an outstanding small commercial vehicle it is.

It is fitted with the latest ABS and EBA primary safety systems as standard equipment, whilst the bodies are engineered to deliver exceptional secondary safety performance, with a collapsible front end featuring several

impact absorption structures. A driver's airbag is standard, with front passenger and side airbags available depending on the version.

Entry is through a side door which gives easy passenger access. A 710mm x 1520mm ramp is available for wheelchair and disabled access at the rear of the vehicle.

Our standard specification includes fully bonded glazing to manufacturer's specification, luxurious, but hardwearing trim, M1 tested passenger seats (all fitted with integral lap and diagonal belts) which conform to the latest EEC Directives. An extensive list of options is available to enable the discerning customer to bespoke their vehicle to meet their specific requirements.

Your wheelchair accessible conversion also has IVA Type Approval guaranteeing you of the maximum possible safety.
